

# BYOD iPad® Program

## 2024 Information & Specifications

### Digital Tools for Purchase

Below outlines, the digital tools that students are encouraged to have in 2024 that will drive and amplify the Ormeau Woods State High School Teaching and Learning vision:

iPad & Case

Screen Protector

Apple Pencil® / Logitech Crayon®

**The BYOD iPad® Program** at Ormeau Woods State High School has the following two options:

1. Purchase of a school-based iPad® Bundle
2. A personal iPad® meeting technical specifications

### Getting ready for Learning in 2024

Minimum iPad specification iPad 7<sup>th</sup> generation

Requires enrolment in school BYOD program to access network, internet and printing

School does not manage or monitor this device

The following are example of devices that DO NOT meet the minimum specifications: iPad 1<sup>st</sup> to 6<sup>th</sup> generation, iPad mini or iPad Air 1<sup>st</sup> -2<sup>nd</sup> generation  
4G SIM card must be removed when using at school.

### The Apple Pencil

The addition of the Apple Pencil to our students' digital tool kit enables them to make even greater use of their iPad. Through app integration, students are able to fully mimic not just a regular pen and paper, but all the functional and creative contents of a well-stocked pencil case. This allows digital production of artwork, technical sketches, graphs and conventional mathematical working out. Research has shown that drawing pictures to represent information increases retention of that information. The act of sketching is even superior to other activities like reading or writing because the brain is forced to process information visually, kinesthetically and semantically thus boosting memory and recall by nearly 100%.
