

Best Results yet in 2024

At Ormeau Woods, our commitment to Inspire Minds to Share a Positive Future continues to be the cornerstone of our educational philosophy. Success here is not confined to academic results alone but is measured through the development of key skills, cultivating a growth mindset, and preparing students for a meaningful pathway.

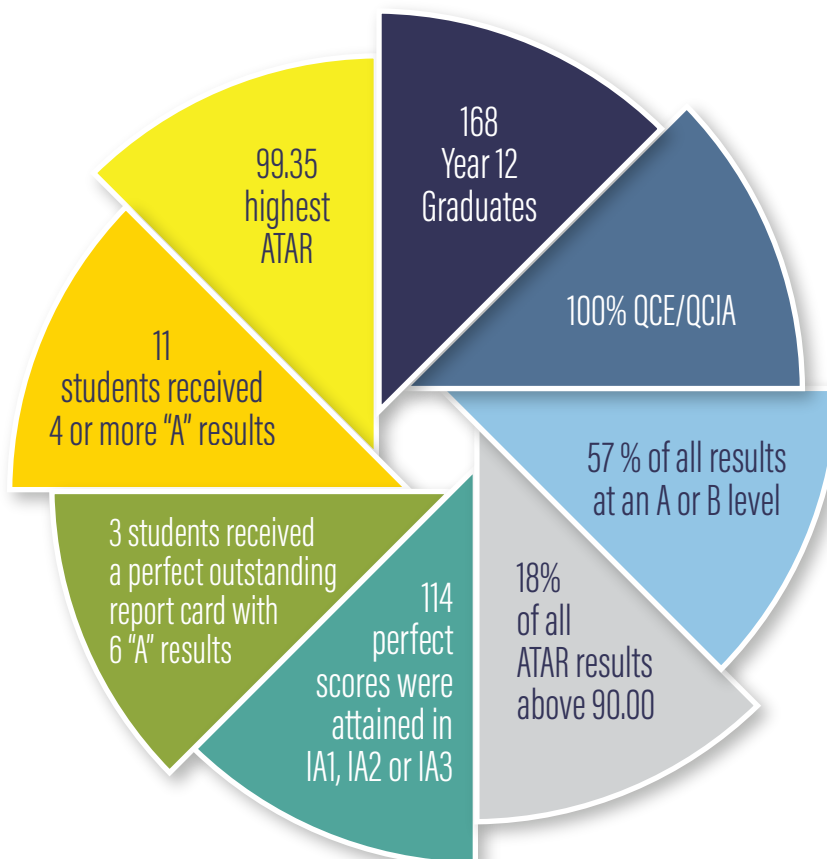

Our vision at Ormeau Woods SHS through linking learning with life is to empower students to excel academically while seamlessly connecting their learning to life beyond the classroom. By equipping students with transferable skills, we aim to prepare them for real-world challenges and opportunities, ensuring they are ready to thrive in a dynamic and ever-changing world.

The success of Ormeau Woods is reflected not only in our students' accomplishments but also in their transformative six-year journey from adolescence to adulthood. Every milestone achieved, challenge overcome, and lesson learned represents the resilience, determination, and personal growth of our student body.

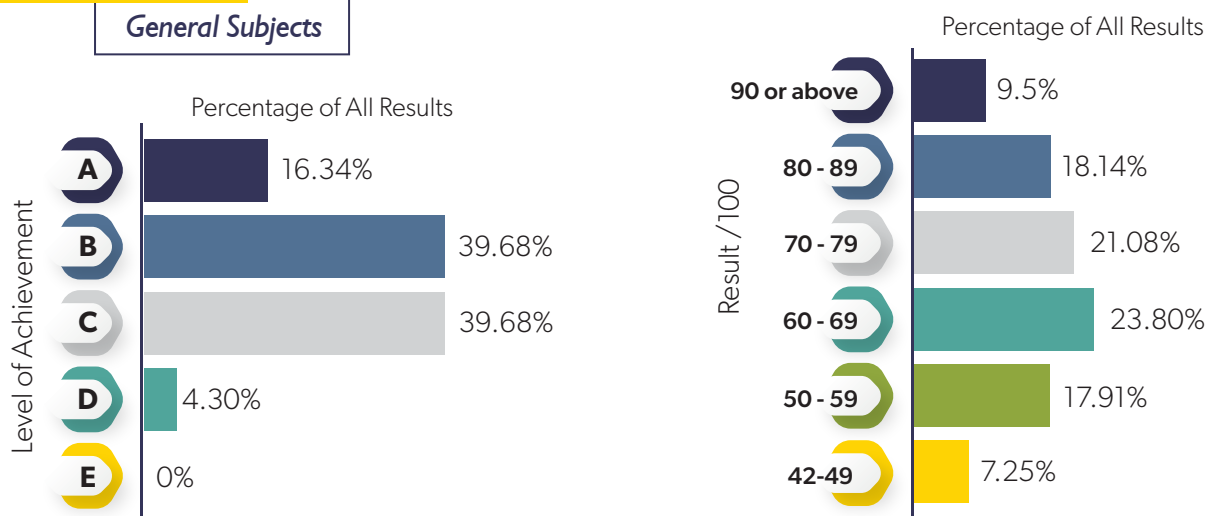

Through this holistic approach, Ormeau Woods SHS shapes individuals who are not only academically capable but also empowered to contribute meaningfully to their communities and the wider world.

Our 2024 results have surpassed all previous years results!

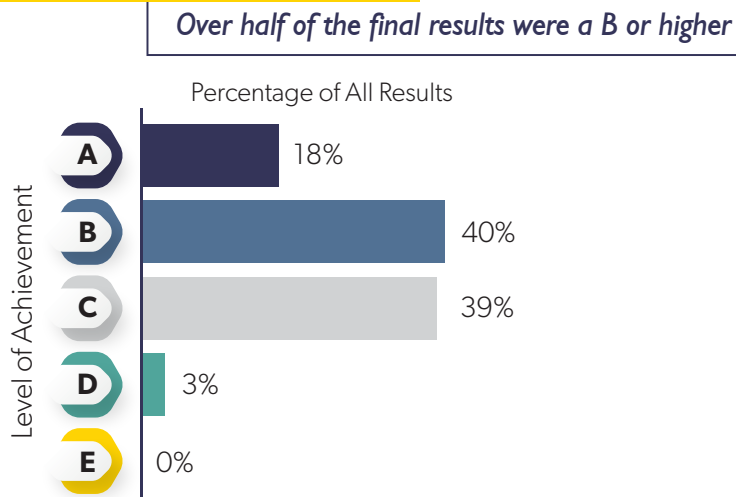

2024 Outcome Snapshot

Subject Results

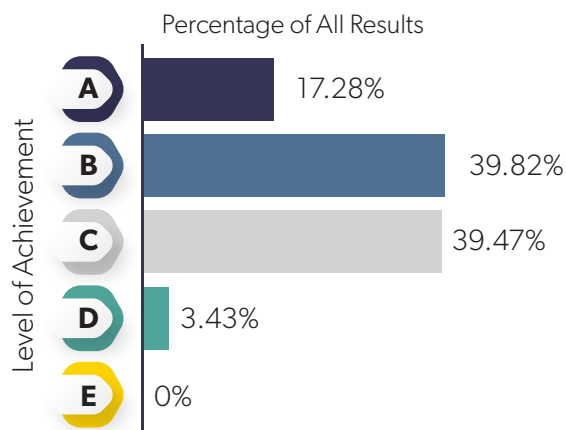

Applied and Applied Essential Subjects

All Subject results

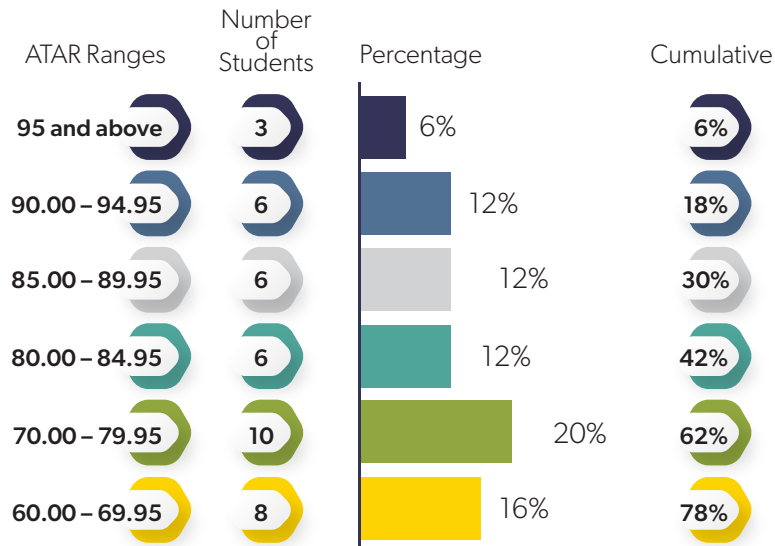

General, Applied and Applied Essential Subjects

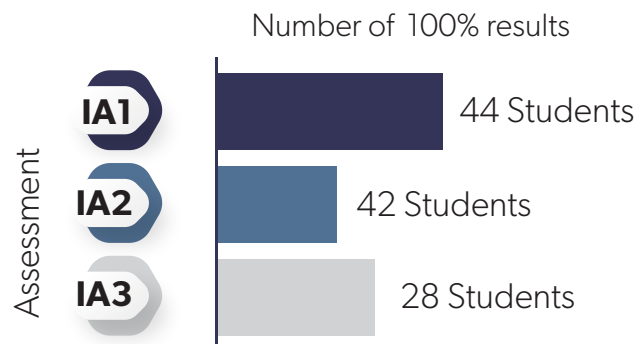

ATAR Results

Our Highest ATAR result was 98.35 | Our Median ATAR result was 80.90

**This is our school's best ATAR yet!*

Perfect Results in General Subjects

Where do our Graduates go?

Both ATAR and non ATAR pathway students can apply through QTAC during year 12. 61 offers were made across December and January to our students.

88% of offers were to first and second preferences for our students, allowing them to study in the chosen field as they link learning with life at University.

Top Institutions for our students continue to be Griffith University followed by Queensland University of Technology (QUT) and University of Queensland (UQ)

The most common fields of study were Science, Health (Paramedicine and Nursing), Education (Primary, Secondary or Early Childhood), Engineering and Law.
