

# YEAR 12 ACADEMIC RESULTS

## Class of 2025

### Best Results yet in 2025

At Ormeau Woods State High School, our commitment to Inspiring Minds to Shape a Positive Future remains at the heart of everything we do. We recognise that success extends far beyond academic achievement; it is defined by the development of essential skills, the nurturing of a growth mindset, and the preparation of every student for a meaningful and fulfilling pathway beyond school.

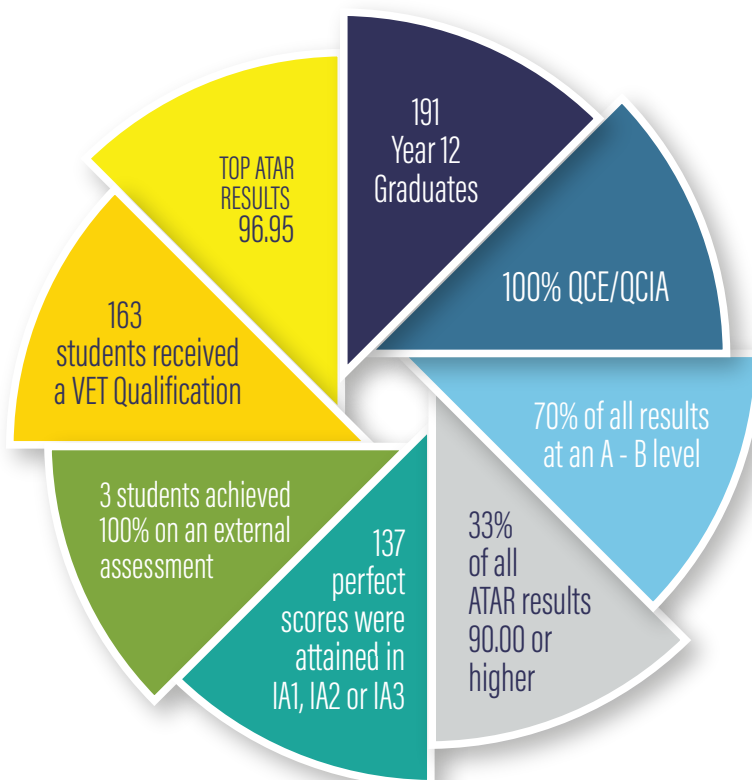

Our vision—Linking Learning with Life—continues to guide our work as we empower students to excel academically while making authentic connections between their learning and the world around them. By equipping students with transferable skills, we prepare them to navigate real-world challenges, embrace opportunities, and thrive in an ever-evolving global landscape.

The success of Ormeau Woods is reflected not only in strong student outcomes, but also in the remarkable six-year journey each student undertakes—from adolescence to confident, capable adulthood. Every milestone reached, every challenge overcome, and every lesson learned is a testament to the resilience, determination, and growth of our students.

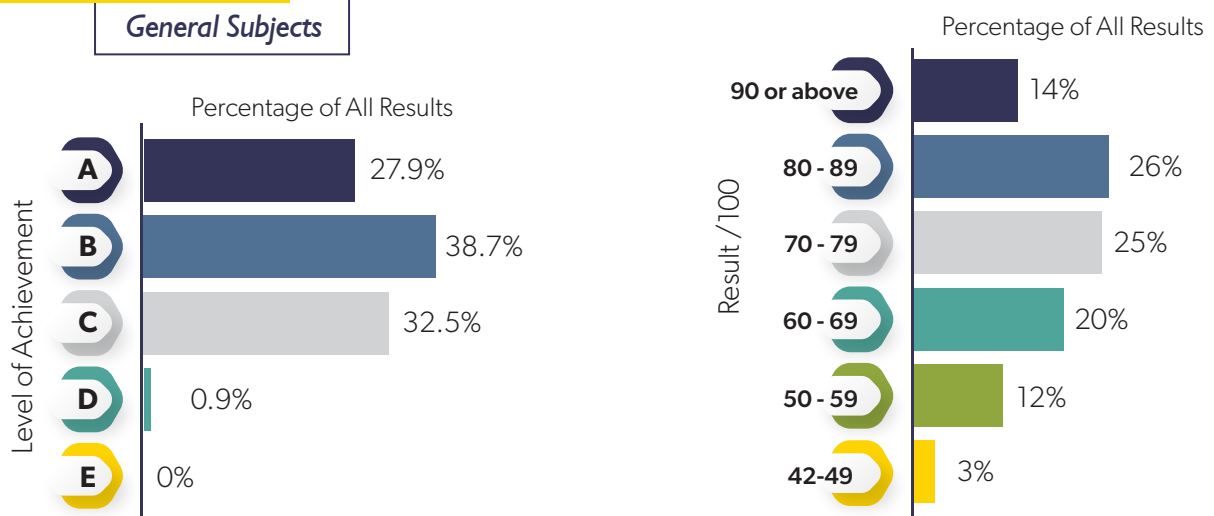

Through this holistic approach, Ormeau Woods SHS continues to cultivate individuals who are not only academically capable, but also empowered to make meaningful contributions to their communities and the wider world.

In 2025, we are proud to celebrate results that have surpassed all previous years—an outstanding reflection of the collective efforts of our students, staff, and community, and a powerful indicator of the continued success of our school.

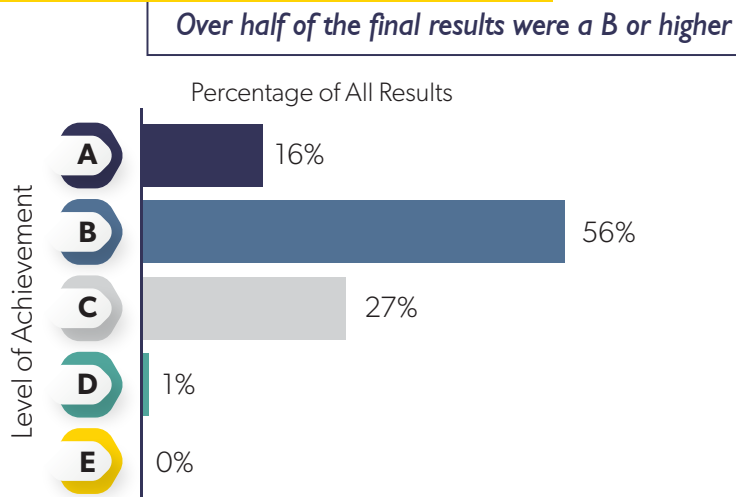

### 2025 Outcome Snapshot

## Applied and Applied Essential Subjects

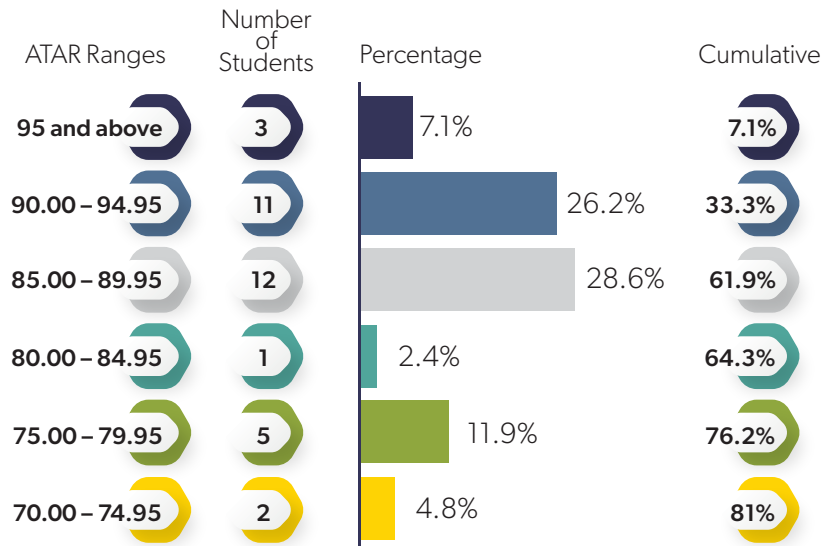

## All Subject results

**General, Applied and Applied Essential Subjects**

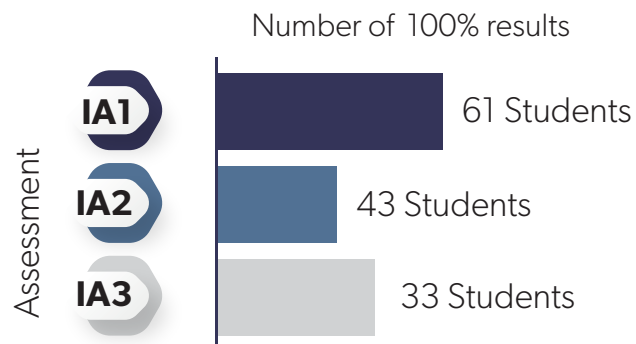

## ATAR Results

Our Highest ATAR result was 96.95

## Perfect Results in General Subjects

## Where do our Graduates go?

Both ATAR and non-ATAR pathway students at Ormeau Woods SHS are supported to apply through QTAC during Year 12, ensuring access to a wide range of post-school opportunities. In 2025, our students received an impressive 61 university offers across the December and January rounds.

An outstanding 88% of these offers were in students' first or second preference courses, enabling them to pursue their chosen fields of study and continue to Link Learning with Life in a university setting.

Griffith University remained the most popular destination, with 33 offers, followed by Queensland University of Technology (15 offers). Additional offers were distributed across the University of Queensland, Southern Cross University, Bond University, and Australian Catholic University, reflecting the breadth of opportunities accessed by our students.

The most common fields of study included Natural and Physical Sciences (14 offers), Education (12 offers), and both Engineering and Society & Culture (9 offers each), highlighting the diverse aspirations and strengths of our graduating cohort.
