**Heath and Movement Studies**

Griffith Exercise and Sport Science
- Pathway into Griffith University Exercise Science Degree Program

**Students in Year 9**

Students who select Health and Movement Studies as an elective in Year 9 do so with the intention of direct entry in Senior Physical Education. The elective provides accelerated learning experiences that will streamline them into the Year 10 Exercise and Sports Science program.

**Students in Year 10**

Students enrolled in Year 10 Exercise and Sports Science are prepared for the Griffith Exercise and Sports Science program in Year 11 and 12. The course is an advanced class where students are constantly challenged in preparation for specialised senior study.

**Students in Year 11**

Students will study the first half of the content in the Griffith Exercise and Sport Science program. In addition, students will attend an all day laboratory session held on campus at Griffith University, Gold Coast, in which students complete a laboratory book and quiz. Upon completion of a final exam students will be invited to continue the course in Year 12.

**Students in Year 12**

Students will study the remaining content of Griffith Exercise and Sport Science program. Students will be required to sit a final exam at the end of the course. Upon completion students will be given a guaranteed admission into Griffith University’s Exercise Science degree program.

**Benefits**

- Guaranteed admission into Tertiary study.
- Students pay $75 administration fee for 2 years of Tertiary Education and learning experiences.
- Individuals save $1000 on first year University Fees.
- Admission into University before completion of Year 12.
- Work Experience with PhD and Doctoral professors and professional sporting teams.
