From the Principal

School overview

Located on the corner of Goldmine Road and Minka Lane, Ormeau Woods State High opened in January 2009 with 250 students in Years 8 and 9. In 2012 the first cohort of Year 12 students graduated. In 2015 Year 7's moved into the school as part of the 'Flying Start' initiative. The school accommodates students in Years 7 – 12 and draws most all of its students from the local feeder schools: Norfolk Village, Ormeau and Woongoolba State Schools. Ormeau Woods State High School is developing new and innovative approaches to education. There is extensive use of modern technologies and the latest in software applications. The school was an 'early adopter' of the BYOD program where students have access to their own learning device. Our ambition is to be a leading Queensland school where students can excel in; academic studies, cultural and creative fields, sporting pursuits and community service. These are referred to in the school as our 'Four Pillars'. Staff have demonstrated their willingness to adopt practices which involve developing flexible classroom landscapes and cultures that support modern learners. Ormeau Woods SHS offers comprehensive and innovative programs which attract both tertiary bound students and those who value vocational qualifications. We have forged strong partnerships with local universities that offer 'Guaranteed Admission Programs'. We are also committed to vocational education and workplace learning. Students have the opportunity to combine paid work with schooling by applying for School - Based Apprenticeships and Traineeships coordinated by school staff. The number of students studying a TAFE subject as part of their Senior course has increased significantly. The school offers a diverse range excellence programs including; Dance, Art, Design Technology, Sports Science and Junior Secondary Academic Extension (XL). Our commitment to Positive Behaviour for Learning (PB4L) creates effective learning environments. The program emphasises the use of preventative teaching and reinforcement-based strategies to achieve meaningful and durable behaviour and lifestyle outcomes. Students are accountable for their own actions, resolving differences in constructive, peaceful ways, contributing to the overall school community and becoming empowered to take responsibility for their learning. Our guiding principles, expressed in our Responsible Behaviour Plan are; Respect for Teaching and Learning, Respect for Self and Others and Respect for Property. The recent School Improvement Unit Report concluded that ... 'The culture of the school is built upon positive behaviour and engaged learning. Positive Behaviour for Learning (PB4L) is fundamental to the drive for and establishment of positive behaviour standards and a learning culture in the school. A clearly documented whole school plan for curriculum delivery is being implemented effectively throughout the school. A strong alignment exists between the overall curriculum delivery plan, term and unit plans, classroom teaching and the regular assessment of student progress in relation to curriculum expectations. There is also strong 'vertical' alignment of the curriculum and which is substantially delivered through digital pedagogy. There is an extensive range of partnerships in place to improve learning opportunities and outcomes for students.' Our students are part of a unique 'new school' experience which provides them with personal challenges and rewards in shaping our history and future direction.

The [class size](#) targets for composite classes are informed by the relevant year level target. Where composite classes exist across cohorts (e.g. year 3/4) the class size targets would be the lower cohort target.

Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

Social climate

Overview

Each Queensland state school develops and enacts policies to support an integrated approach to behaviour, learning and teaching.

Our Student Code of Conduct is our school's behaviour policy, with information about school rules, consequences and processes for addressing bullying and the use of technology. A copy of this is available on our school website.

Further information is also available at <https://www.qld.gov.au/education/schools/health>.

Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

Respectful relationships education programs

Our school has implemented the Respectful relationships education program (RREP) as part of the broad multi-departmental Queensland Government approach to ending domestic and family violence.

The RREP is a Prep to Year 12 prevention program that focuses on influencing behavioural change to build a culture based on equality and respect in our students, staff, parents and wider community. Students are provided opportunities to explore social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, gender roles, stereotypes, human rights, risk and responsible decision-making. A growing body of evidence shows that social and emotional learning of this nature leads to:

- improved social and emotional skills, self-concept, bonding to school and classroom behaviour
- less disruptive classroom behaviour, aggression, bullying and delinquent acts
- reduced emotional distress such as depression, stress or social withdrawal.

Further information is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/respectful-relationships>

School disciplinary absences

Long suspensions – 11 to 20 days	6	16	32
Exclusions	8	7	15
Cancellations of enrolment	1	0	0

Note:

School disciplinary absences (SDAs) are absences enforced by a school for student conduct that is prejudicial to the good order and management of the school.

Environmental footprint

Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	661,294	656,368	710,346
Water (kL)	1,221	5,517	564

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.

Notes:

1. The apparent retention rate for Year 10 to Year 12 = the number of full time students in Year 12 expressed as the percentage of those students who were in Year 10 two years previously (this may be greater than 100%).
2. *Indigenous* refers to Aboriginal and Torres Strait Islander people of Australia.

Student destinations

The Queensland Department of Education conducts [annual surveys](#) that capture information about the journey of early school leavers and Year 12 leavers from school to further study and employment.

Early school leavers

The destinations of young people who left this school in Year 10, 11 or before completing Year 12 are described below.

Schools work closely with a range of external agencies to support students who left school early.

Our Principal, Deputy Principal, Regional Transitions Officer or Guidance Officer liaises with early school leavers and their parents, providing a service 'beyond the school gate' to assist early leavers make a successful transition to other educational pursuits or employment.

Next Step — Post-school destinations

The results of the 2020 Next Step post-school destinations survey, *Next Step – Post-School Destinations* report (information about students who completed Year 12 in 2019), will be uploaded to this school's website in September 2020.

To maintain privacy and confidentiality of individuals, schools with fewer than five responses will not have a report available.

This school's report will be available at <https://ormeauwoodsshs.eq.edu.au>.
